How societies like IPS and CHICA can influence sustainable change

We need to ask some questions of ourselves:
- How healthy are we?
- What are our vital signs telling us?
- Do we know what our members want?
- Do we know what patients/consumers want?
- Do we know what health care practitioners want?
- Do we ask?
- Do they tell us?
Voices of CHICA Webinar
March 20, 2012

1. Direction
   - Do we have a clear sense of where we’re heading and how we will get there that makes sense to everyone?
   - IPS Strategy:

   **Our Vision**
   Our vision is that no person is harmed by a preventable infection.

2. Leadership
   - Do we lead effectively and inspire action in others?

3. Culture and climate
   - Are we clear about our shared beliefs and the quality of our interactions within and across the organizations we serve?

4. Capability
   - Do we have the right skills and talent to execute our collective strategies and create competitive advantage?

5. Motivation
   - Do we engender the right level of enthusiasm that drives practitioners and members to put in extraordinary effort to deliver results?
Voices of CHICA Webinar  
March 20, 2012

6. External orientation

- Do we engage with our members in a quality way to inspire change?

9. Innovation and learning

- Do we have the quality and flow of new ideas and the ability to adapt and shape our societies as needed?

Thank you CHICA-Canada

- Looking forward to a vibrant conference in June
