How CBIC Works for You
(What CBIC does and how it benefits the global infection control community)

Certification is Commitment

Lita Jo Henman, MPH, CIC
Ivan W. Gowe, MS, MLS(ASCP)CM, CIC

What is CBIC?

• Voluntary, independent, multidisciplinary Board

• Mission: To protect the public through the development, administration and promotion of an accredited certification in infection prevention & control. CBIC maintains and promotes professional certification of the highest quality through the accomplishment of key objectives.

Hosted by Sandra Callery, Public Health Ontario, CBIC Director
www.webbertraining.com
What is CBIC?

• Established by the Association for Professionals in Infection Control and Epidemiology, Inc. (APIC) in 1981; CBIC is an affiliate of APIC
• Accredited by the National Commission for Certifying Agencies (NCCA)
• Member of the Institute for Credentialing Excellence (ICE), formerly National Organization for Competency Assurance (NOCA)

Why Certify?

• Reaffirms that through study and hard work, certificants attain an internationally recognized level of knowledge in the infection prevention and control field
• Supports future knowledge and skills
• Enhances professional credibility and prestige
• Grants personal satisfaction
Use of the CIC® Credential

• Only individuals who have successfully passed the proctored, initial certification examination and have maintained current certification, through the recertification examination* may use the CIC® credential.

• The CIC® credential may be used on resumes, business cards, letterhead, and other professional communications.

• The CIC® credential may not be used for product or other endorsements.

*CICs may maintain certification through the proctored examination, only if they receive a failing score on the recertification exam.

The CIC® exam is International

• About 6,800 CICs in over 40 countries worldwide

• Offered in English and French Canadian

• Exam is based on standardized infection prevention practices

• Not solely based on U.S. regulations

Methods of Certification & Recertification

Initial certification:
Proctored initial certification examination

Recertification:
Self-paced, open book recertification examination*

*Proctored certification examination if candidate fails recertification examination

Certification/recertification is valid for 5 years

Certification Examinations

• Comprehensive, job-related, objective tests
• 150 multiple choice questions; 135 of which are scored
• Developed from a practice analysis of Infection Prevention and Control Professionals in the U.S., Canada and other countries
• Recognized by APIC and IPAC Canada as the standard for certification in infection control
• Recognized by TJC as a measure of competence

Hosted by Sandra Callery, Public Health Ontario, CBIC Director
www.webbertraining.com
Certification Examinations

- Aligned with recognized practice standards for Infection Control and Healthcare Epidemiology
- The *only* standardized measurement of essential knowledge, skills, and abilities expected of infection prevention and control professionals in North America
- ALL examination questions are the copyrighted property of CBIC

Initial Examination

- Proctored examination
- Required for initial certification
- Administered at assessment centers throughout the United States, Canada and other international sites
- 90-day window from application approval to exam completion
Recertification Examination

• Self-administered (non-proctored), multiple choice, internet-based from any location
• Questions are based on the most current CBIC practice analysis
• The purpose of the recertification examination is to demonstrate continued knowledge mastery in the field of infection prevention and control

Recertification Examination

• Unlimited access before submission
• Must be done alone; do not discuss with colleagues
• Deadline to purchase: December 1
• Deadline to submit: 11:59pm GMT/6:59pm EST on December 31* (same calendar year)

*CBIC strongly recommends submitting the SARE no later than December 30th to be sure that the exam is submitted successfully in time.
Eligibility for Certification

Successful certification indicates competence in the actual practice of infection prevention and control and healthcare epidemiology, and is intended for individuals who are actively accountable for the infection prevention and control program within their current position.

You are accountable for the infection prevention and control activities/program in your setting and this is reflected in your current job description.

AND

Eligibility for Certification

You have a post-secondary degree from an accredited academic institution.

AND

You have had sufficient experience (recommended: two years) in infection prevention and control which includes all three (3) of the following:

• Identification of infectious disease processes
• Surveillance and epidemiologic investigation
• Preventing and controlling the transmission of infectious agents

While there is no specific time requirement that defines “sufficient experience”, the certification examination is geared toward the professional who has had at least two years of full-time experience in infection prevention and control.
Eligibility for Certification

And at least two (2) of the remaining five (5) components:

- Employee/occupational health
- Management and communication
- Education and research
- Environment of care
- Cleaning, sterilization, disinfection, and asepsis

Eligibility for Certification

- Candidates who are self-employed must submit additional documentation (See Candidate Handbook on our website for details)

Eligibility for Recertification

- Individuals who are currently certified are automatically eligible for recertification every 5 years.
Lapsed Certification

If you fail to recertify when you are due and later decide that you would like to, you:

1. Must meet the criteria for *initial* certification
2. May no longer be eligible if you have changed positions to one where infection control is *NOT* your main area of responsibility

Preparing for the Examination

- Create a study plan
- Review reference material (as listed in the candidate handbook), journals and standards, including APIC and IPAC Canada’s Practice Standards
- Form a study group amongst your peers
- Listen to our teleclasses/webinars
  - “Road to CIC Certification” webbertraining.com/recordingslibraryc4.php
  - "How to Prepare for the CIC exam" cbic.org/certification/media
- Contact your local APIC or IPAC Canada chapter for support.

Resources
